

Sikafloor[®] Marine Deco Systems FREEDOM OF DESIGN

Sikafloor® Marine Deco Comfort

The solution is where the design desire is

CREATIVITY HAS NO BOUNDARIES WITH Sikafloor® Marine Deco Comfort.

Sika Marine flooring systems have gained a world wide experience in the field of deck coverings on commercial vessels, heavy duty workboats, yachts, and cruise ships. The Sika Marine flooring systems are proven to be the best in class due to factors ease of installation, low weight, improvements in acoustics and superior aesthetics.

Sika is launching a new range of specially designed IMO certified interior and exterior decorative flooring systems. With Sikafloor® Marine Deco Comfort there are no limits for the creative mind, the system is available in almost every colour, and can be combined with aesthetical additives and different colours can easily be mixed-and-matched together.

With the complete Sikafloor® Marine product range Sika offers the shipyard and/or end-user a one-stop-shop opportunity where best quality, aesthetics and service comes first.

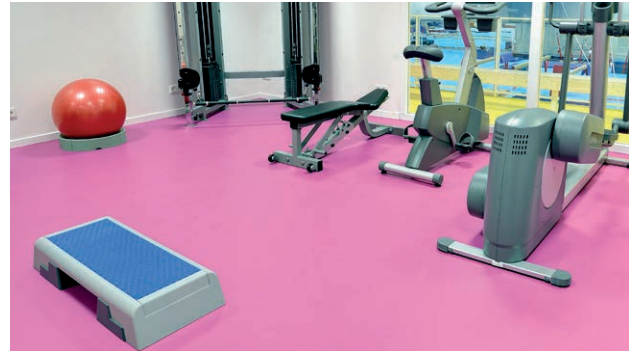

"INNOVATION AND DESIGN - WHERE OTHERS STOP WE GO FURTHER TO SET THE NEW LEVEL OF QUALITY AND AESTHETICS IN MARINE FLOORING."

Inspiration from our environment and from everywhere.

Sikafloor® Marine Deco Comfort

The solution is where the design desire is

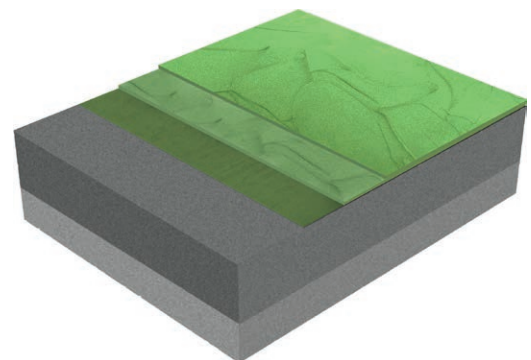

Sikafloor® Marine Deco Comfort is a unique, comfortable, very elastic and highly decorative polyurethane resin floor. The floor system offers excellent grip in both dry and wet conditions. The smooth and seamless design makes it an ideal alternative to sheet vinyl finishes. Sikafloor® Marine Deco Comfort system consists of multiple primers, levelling materials, base and topcoats which are all accompanied with the necessary IMO certification. The Sikafloor® Marine Deco Comfort is resistant to the most common oils, greases, juices, salts and solvents. Due to its flexibility, Sikafloor® Marine Deco Comfort systems do not break, crack or splinter and are easy to clean and require low maintenance.

SUSTAINABILITY

The system meets the strictest emission requirements of various green labels in order to protect the applicator and the users of the vessels, in terms of environment, health and safety.

The newly developed Sikafloor® Marine Deco Comfort product range offers many advantages for the user as well as for the professional applicator during the installation:

- Self-smoothing
- Very low VOC emission
- Flexible with Good crack bridging capability
- Foot warm
- Permanently elastic
- Good mechanical resistance
- Easy to apply
- IMO certified
- Easy to maintain

Layer	Product
1. Substrate	Steel deck
2. Substrate	Leveling compound
3. Primer	Sikafloor®-161 /-156
